

# SEP Kundenreferenz: Stürtz Maschinenbau GmbH

Stürtz Maschinenbau GmbH - whether individual machines or complete automation systems, ambitious window manufacturers or large international companies - with its innovations and a global sales network, Stürtz sets standards in technology, automation, consulting and service for the window manufacturing industry worldwide. Customers are offered a comprehensive product portfolio - from bar processing, welding and cleaning lines, hardware assembly, glass handling and material logistics to installation and suitable software solutions. Stürtz is a leading manufacturer of systems for plastic window production, ensuring the highest quality and precision of its machines so that its customers can build excellent windows.

*"The SEP CAPS solution for Microsoft 365 is intuitive and easy to use. It is very stable and reliable. We also really appreciate the fact that CAPS as a complete solution includes unlimited storage space and GDPR-compliant data storage at a very good price/performance ratio."* David Lamprea, IT – Administrator, Stürtz Maschinenbau GmbH

▪ SEP Cloud Application Protection Service – (CAPS) für Microsoft 365
